Your Current Stock

Brand_____ Approximate Age_____

Length of Pull(Buttplate to Trigger)_____ Where is your trigger blade on the adjustment rail? _____

Maximum Depth from the top of the stock to below the trigger. _____

Cast* Off___ Straight___ On___ How Much_____

Cheekpiece is Above___ Even With___ Below___ Centerline of the Barrel. By how much? _____

Buttplate to Handstop_____

**"Cast" refers to the relationship between the Buttplate and the Centerline of the barrel. For a Right Handed stock, 'Off' would indicate that the buttplate is to the right of center. 'On' would be to the left of center.*

Fit of your Current Stock

Overall comments, specific areas or problems you would like your new stock to address:

Does the rifle tip away from you in Prone? _____

Do you feel you need to arch or 'crane' your neck to get behind the sights, regardless of how you position the cheekpiece? _____

Preferences for Your New Stock-please call the shop with questions regarding the pros and cons and pricing of different preferences.

Laminated _____ Solid _____

Wood Type(s): Walnut _____ Maple _____ Cherry _____ Beech _____ Other _____

How do you want them combined (laminated)? We typically do a 3-layer lamination and recommend either all the layers be the same or the two outside layers be the same wood type.

Do you want the palm swell to be a different material? _____ What? _____

Do you want Anschutz cheek and/or butt plate adjustment hardware installed? _____

Spare Round Holder

Type. 2x3-round _____ 6-round in line _____ 6 round stacked _____
